

CONSTRUCTION & UTILITIES CAREER DAY

A Partnership with Education, Workforce and Industry
September 27th, 2018

Join the industry movement to increase youth awareness of career opportunities in the construction and utility trades by becoming a financial supporter of and participant in this exciting event.

Participants will educate young people on the construction and utility careers available to them through:

- **Booth Exhibits:** Contractors, state agencies, trade apprenticeship programs, high school CTE programs and two- and four-year colleges, will be among the booth exhibitors.
- **Hands-On Activities:** Participants and students will collaboratively demonstrate job-related skills, such as finishing concrete, setting tile, rebar-tying, climbing power poles, and conduit bending, in a controlled environment.
- **Heavy Equipment:** Students, under the guidance of trained operators, will actually run the equipment in a controlled, safe environment under skilled direction.

The goal for the day is to introduce up to 450 local high school students to the wide range of career choices and training opportunities available in the construction and utility industries. We're asking for your support in helping us put on this event.

Previous sponsors have included: Lane Education Service District, ODOT, BOLI, Federal Highway Administration, Hamilton Construction, Northwest College of Construction, Lane Workforce Partnership, EWEB, and Mid-Oregon IEC.
